

SIGMACOUSTIC

Textured, transparent, acoustic fabric. A soft draping, flame-retardant weave that is reminiscent of natural fibres. The weave look and the relief effect lend the fabric volume and bring it to life. Processing of diverse yarns achieves depth of colour and a two-sided look. Curtains and room dividers charm with residential aesthetics and efficient acoustics that achieve sound absorption values of α_w 0.75. The fabric's naturalness is enhanced with a colour palette of light, broken and earthy tones.
